YES!!

I certainly could use some assistance! I decided not to offer it to our students to help for community service points because it's late notice and it doesn't really fit the criteria set for them to complete a lesson plan.

The summer exploration team has requested that our Henry Schein rep order toothbrush, paste and floss bundles for the students to use during a lesson about the dental hygiene career and their own oral health routine. It's getting late and I have not heard from our Schein rep (maybe the summer exploration ladies have heard from her but I have not). Dr. C said she's not very responsive. I've sent another email to her. I plan to call her in between classes today.

I'm thinking of a back up plan as we speak. Maybe a brief 6-8 slide ppt and a Kahoot game would work if the order hasn't come in? I'm also looking at getting brushes from the local hygiene society to obtain quickly, but I would need them replaced before our next event on 6/22.

The group of 28 teens (age 13-15) would be split in half for us to do the same presentation twice. Group A is 9:30am-10:30 and 10:40-11:40am in GA and then I run to UN 331 for Dental Materials.

Let me know if you are still interested (or if I scared you off)!

Hi Ebony,

Do you need any help with this? I couldn't exactly tell from the schedule when Group A or Group B would be coming to GA.
